

*Consent, for the usability testing participants and to the use of the information given*

**Title : Foreign students that change country and have to integrate into a new context.**

I have been informed about the research project and how my contribution can be used. It was explained to me how the transcription of the interview, and / or listening to the related audio / video recording, will be kept confidential, except for my consent to make it public.

My contribution will be kept in a safe place, and access will only be allowed to those who receive permission from the facilitator.

I am aware that I can withdraw my consent at any time by informing the facilitator

With this I assign the copyright to the facilitator and observers
